

NOVAE EPISTULAE

It is time for a greater commitment!

Dear friend,

Archbishop and friend Jeanbart wrote us about great and miraculous work in progress in Aleppo thanks to our help and many other supporters. Our prayers and our donations support the reconstruction of the cathedral and useful buildings for the community life.

In the last two years we promoted not only the reconstruction of the Cathedral, of the damaged buildings of the Bishop's palace and priests' houses, but also other 22 aid projects. All of this is possible thanks to the generosity of all the people that do not forget the tragedy in this community and the martyrdom of Christians.

Now that there are significant results, it is time for a greater commitment!

In his letter, the Archbishop wrote about some of the projects:

“ Women's Circle of Aleppo. It is a support group for women who have experienced tragedies in these last years. The circle is managed by a team of volunteers, it has already attracted a large number of women and it is a spot of health and peace. ”

The nursing school of Christian community in Aleppo has never been closed even during the ISIS conflict and occupation. It has been awarded by the Syrian Ministry of Health and since few weeks young people graduated here can work at all hospitals in the country.

The association of Catholic Action in Aleppo organized the “Our lady of joy” Summer camp where 150 children and young people stayed for two months having fun and studying together.

“ We are happy to be a small church with not many human possibilities but with great confidence in Providence that helps us feeding thousands people in our community with five loaves and two fishes. I hope supporters will continue to help us during this year. ”

So let's give to the community in Aleppo our help; our donation for the reconstruction of the Cathedral has given great hope.

Now that there are significant results, it is time for a greater commitment!
