

NOVAE EPISTULAE

Life is hope

Dear friends,

Children's life is endangered. Our parents and grandparents are more and more threatened with death. What sort of world is it? **A world that kill elderly and children has no future and no past.** It is a rotten and decadent system. Unreasonable reasons have moved to attack the life of unborn child in this last weeks all around the world. Money, false rights, insatiable aspirations and desires.

What has happened in these last days is dramatic.

SUPPORT AND DONATE

In **Germany** where the life of the unborn is protected there is a debate on the

possibility that terminations will be punishable by law.

In **Argentina** President Macri said that Congress should launch a debate on broader legalization of abortion.

In **Ireland** they are going to have soon a national referendum on abortion. Traditionally Irish government defends the life of the unborn but the referendum opens to the possibility that it will introduce legislation permitting unrestricted abortion.

Malta government defends life but the Council of Europe's Rights Commissioner insists that it needs to reform laws against abortion; a new legislation is required to provide abortion care to women who request it.

The Inter-American Commission on Human Rights (IACHR) urges **El Salvador** to end the total criminalization of abortion.

The culture of death is being imposed in the world. A less populated world, without the beauty and the hope that children can give, is what people are seeking.

We will do all we can to defend Human Dignity all around the world.

Support us and our Human Dignity Global Index to stand up for children and elderly people!

SUPPORT AND DONATE

Governments are not supporting policies that help mothers, births, families and children. On the other hand, they are looking for shortcut that bring to death with no future.

Aborted children are used as scapegoat for an unsuccessful world policy.

Millions of aborted people will disappear from world wild researches and statistics.

Numbers and names will disappear so that people won't stand up and protest.

This is what will happen to **elderly** too as **euthanasia** is spreading more and more in

Netherland, Belgium, Canada, Switzerland and many other countries.

A world with no children and no elderly is a world with no future and no memory of the past: it would be so sad! It would be dominated by an absolute power with no hope.

Let's rise the flag of human dignity and let's change and hope for a better world.

DONATE NOW

*We invite you to participate to the **Lenten Novena** considering the peak of our commitment.*

*From **20th to 28th March** you are invited to pray together with us and all our friends around the world so that we don't forget and we get together to **defend and promote human dignity**.*

Thank you for **your help, prayers and attention !**
