

NOVAE EPISTULAE

Abortion and the revolutionaries

Dear friends,

Abortion is spreading, we can consider us revolutionaries

More than ever before **abortion is promoted and supported** by any means possible in all countries, a politically 'correct' plague infects all countries.

In 2018 a global pro- abortion initiative has just started. It supports the cruelest murder, the murder of an innocent, unborn creature.

In Europe there is a fall in the birth rate, we should provide reward to those mothers who choose to deliver a baby but this is not happening. On the contrary there is an offensive aimed at making abortion legal and introducing it in all countries.

Stand up do defend unborn children and human dignity!

SUPPORT AND DONATE

In **Malta** even people responsible for human rights made an effort asking, actually

strongly claiming, the legalization of abortion; in **Cipro** the decriminalization of it has been approved on Good Friday with an amendment. **Poland** tries to prohibit abortion for down syndrome but international organizations keep targeting it to change its opinion. In **Ireland** government has put itself on the side of pro-abortion lobbies in order to approve referendum that will legalize abortion next May. **An unprecedented pressure and violence** probably due to the reduction of US money support to pro- abortion agencies.

In **Latin America** things are not all right: in Parliament discussions continue on the decriminalization of abortion. In **Peru** the new minister of health promotes it; in **El Salvador** some leaders in the government ask for the liberalization of abortion.

Mothers and fathers who accept the new life of their child can be consider heroes of the XXI century and will be remember as bright example for the next generations.

Let's make a difference and defend Human Dignity all around the world.

SUPPORT AND DONATE

Economic interests and others are so powerful that **the right of conscientious objection** is in danger and with it doctors, paramedics and private clinics who refuse to provide abortion or euthanasia.

Canada, Chile, UK and Italy are some of the countries where the attack against life is stronger and stronger and it hides behind the words “rights” and “duties”. Everything is so confused and wrong.

Life is life; death is death; our conscience can not be oppressed.

We must be grateful to all those **parents** and people who oppose and resist to this wave of death; **doctors and nurses** who fight and risk of losing their jobs in order to defend their conscience; **politicians** (even if they are just a few) who resist in the truth in spite of the pressure.

In any case we always support the “resistance”, we are revolutionaries.

Let's rise the flag of human dignity for unborn children!

DONATE NOW

Let us have the courage to support life every day: this decision is the new beginning of a revolution that will change the world!

You will not be alone, our Global Index on Human Dignity will **break this deathly conspiracy.**

Thank you for **your help, prayers and attention !**
