

NOVAE EPISTULAE

International day of families

Dear friends,

On May 15th is the **International Family Day** and for 2018 UN chose the very important theme “Families and inclusive societies”.

In this last year **we have constantly informed** you on studies, researches and comments about the situation that families around the world live in.

Many researches enhance the **positive role of family based on marriage between a man and a woman, ready for the gift of children**. Different studies demonstrate how the absence or the destruction of family relations not only cause problems to parents and children, but also destroy the social cohesion of local and national community.

Thanks because your donation makes possible our research!

SUPPORT AND DONATE

Family is something good for and of everyone. **Family is good for its members, father and mother, children and grandparents. Family is the most precious thing for the community and for the nation**, but national and international policies invest too little time and money on it.

Financial crisis and the uncertainty in the workplace force **many young people to postpone the possibility of marriage** and the opportunity of building a family happily.

Crisis and hostile cultural environment are the big problems that maternity and paternity must face and that's why in many European and international countries the number of newborns is decreasing.

Social cohesion is supported and reinforced too by the family in every country.

Let's make a difference!

SUPPORT AND DONATE

On the opposite hand the growing number of children born outside of wedlock could be dangerous because it increases the relations instability and could break the

social cohesion.

With our **IGIF on family policies** we wanted to give you all, to national and international family associations, governments and institutions **a useful and successful tool** to remember and proudly declare that “family is for cohesion and inclusive societies. **Never stop to affirm and remember it.**

Nowadays, after less than two years from the publication of our research, many countries in the world support family and the relations in it, something good for all.

You can do great things!

DONATE NOW

Thank you for **your help, prayers and attention !**
