Will be fighting for freedom

Dear friend, supporter,

The most impressive warning came in these last days, when the general prosecutor of USA Jeff Sessions declared that freedom of speech is “under attack” on American campuses. They shall change their decisions about freedom of opinion and speech in order to avoid the “politically correct” tyranny that is raising on campuses.

“Freedom of thought and speech in American universities campus are under attack”, Sessions declared, “The American university was once the center of academic freedom a place of robust debate, a forum for the competition of ideas. But it is transforming into an echo chamber of political correctness and homogenous thought, a shelter for fragile egos.”

With his declarations Sessions raised doubts against people who decide “what is offensive and what is acceptable”.

“Freedom of speech doesn’t exist to protect what we all want to agree. It exists to protect what we don’t want to hear.”

In these days the #FreeSpeechBus, an initiative by CitizeGo to affirm in many cities around the world that boys are boys and girls are girls, it has been banned, attacked and damaged by gender idea supporters.

A censure, exactly as every little type of violation of freedom of speech and thought, but also as every manifestation, they all are a type of violence that comes from a new totalitarianism, a new homologation that wants us all the same, slaves to one track-thinking.

We can’t be silent and just accept this kind of imposition that is not less violent or pervasive than the one in the last century.

When we founded Novae Terrae ten years ago we didn't think that it would have been necessary to speak up in defense of this fundamental human right. They want to gag us and prevent us from every public manifestation of what we believe in and we want to propose to all (so far).

Help us today to challenge this new dangerous hegemony!

On the pretext of the defence and support of newly perceived rights, elementary rights we previously enjoyed and took for granted are being eroded under the overpowering hegemony of political correctness.

Our freedom of thought, opinion, speech, conscience, religion and privacy are all in danger.

Respecting and supporting human rights is a commitment for all, help us!

Let help us one another since today, Thanks.
