against colonization!**

We defend our country and life against colonization

About the UN General Assembly in the last days, it was reported only “laughing and heckling” against President Trump, the importance of globalization and fear of populism.

Things are slightly different from what they are saying. The majority of Presidents and heads of government reaffirm the commitment of their countries to defend life from conception to natural death.

Defend life against abortion

People that have been accused to be populist and nationalist, from President Trump to Polish Duda, from Malawi to Ecuador, from Egypt to Honduras, from Paraguay to Guatemala...

Many countries made a common urgent appeal to the UN asking to defend their own countries and cultures, to promote values and defend human life, to counter any type of ideological colonization coming from the West.

Defend life against abortion

We report here just some statements:

Ecuador President MORENO GARCES: “Ecuador’s plan of Government is called “a whole life,” because it wants to be attentive to the human being from the moment they are conceived to the moment of their passing”.

US President DONALD J. TRUMP: "let us come here [...] to stand for our people and their nations — forever strong, forever sovereign, forever just and forever thankful for the grace and the goodness and the glory of God."

Malawi President ARTHUR PETER MUTHARIKA: "every life is precious".

Guatemala President JIMMY MORALES: "I ask you to respect every country's sovereignty. Guatemala has great traditions, it loves and respects life from conception....".

Egypt President ABDEL FATTAH AL SISI: "...while avoiding the imposition of alien models of governance and development, or intervening in the internal affairs of states and violating their sovereignty."

Honduras President JUAN ORLANDO HERNÁNDEZ ALVARADO: "I repeat that dignity of human life is one of the main principle in the UN charter".

Poland president ANDRZEJ DUDA: "Secondly, it is important that multilateralism serves a certain system of values, instead of being just an element of a political technology and a game of interests. Such system of values is reflected in the Charter of the United Nations".

Paraguay President MARIO ABDO BENITEZ: "My country gives profound importance to equality based on human dignity..".

Defend life against abortion

In their reports on UN General Assembly mass media tried to convince us that world is divided between national self-interests and political globalism. It is not true: in most cases who defends interests and values of his own country, defends Catholic values too in particular human life from conception and they want to fight against abortion exactly as we do.
